Education

Ramrao Adik Institute of Technology, D. Y. Patil Deemed to be University

July 2022 – Present

B.Tech in Information Technology, CGPA: 7.51/10

Navi Mumbai, India

Gavrav High School and Junior College

May 2020 – July 2022

12th Grade, Percentage: 53.50%

Seawoods(W), India

S.T. Mary's J.N.P.T School

May 2008 – April 2020

10th Grade, Percentage: 83.81%

J.N.P.T, India

Experience

Identifying Water Droplets In Crowded Areas

April 2025

Project Compidition

Remote

- Developed a water droplet model which be detected using Hololens from the surrounding , this was to based on the Covid-19 cause.
- The system detect the human face and when the person speaks then it detect the water droplets.
- Designed a user-friendly interface to securely generate and visualize shares, and give this safe distance warning.
- **Technologies Used:** Python, Html , Unity , Hololens(Hardware)

Projects

Extraction of Ridge Features of Fingerprint | *javascript, OpenCV , Html , Css.*

Oct 2024

- Develop this image of a fingerprint form the scanned images form this dataset.
- The system detect the the fingerprint and compare the 2 different fingerprint and Checks the similarities form the images.
- Designed a user-friendly and allows the user to check the users fingerprints with respect to its depths and thickness of the the fingerlines.

AR based 3D image convertor | *Unity , ARKit , Vuforia.*

April 2025

- Unity is used as a software where the target image is add to a plan surface.
- The 3D image is placed on the targeted image and then the image and the object are then converted into a single object .
- The Vuforia and ARKit are used to Create the Mobile Application , Thus After scanning the page/Image the 3D object apperas above the image.

Travel and Tourism | *HTML, Javascript , CSS , Excel*

May 2024

- A simple webiste which show about the travel and Experience.
- Design of the website is simple and user-Friendly , the various packages are added to the website its cost and requirement list as per the psckages as well.
- The dataset after the booking it gets into the excel sheet which is easy to handel.

Technical Skills & Certifications

Languages: Python, HTML, CSS, JavaScript ,C/C++

Software: Unity, Blender,3D Max, AutoCad

Data Engineering: Data Analysis, MS Excel, Power BI, Data Visualization

Development: HTML, CSS, JavaScript

Others: Git

HarvardX: Introduction to Artifical Intelligent with Python

IBM: Hardware and Operating System

W3Cx: Introduction to Web Accessibility

CopyRight: Virtual Alchemy Lab An Interactive Chemistry Simulation Using Unity

Extracurricular

Hackerzstreet

May 2025

Jaipur, India

- Participated in Software Project Competition Hackerzstreet 2025 for AR/VR Project Solution.

Hobbies

Gaming,Cricket,Carrom
